

DEPARTMENT OF PEDIATRIC AND PREVENTIVE DENTISTRY, BIDSH, PATNA

Cordially invites you

“IT’S ALL ABOUT LAUGHING GAS” NITROUS OXIDE CONSCIOUS SEDATION

COURSE OBJECTIVE

To train clinicians in the technique of N2O-O2 conscious sedation. After taking the course the participants will be able to administer Inhalation Sedation independently to their patients.

To provide a complete solution of Inhalation Sedation with Nitrous Oxide-Oxygen.

Train in Safe Sedation Practices.

Course Coordinator:
Dr. Chitrita Gupta Mukherjee,
MDS & MFDS RCS (Eng),
Professor & HOD

Course Speaker:
Dr. Kunal Gupta
MDS

About **Dr. Kunal Gupta**

After completing BDS and MDS he attended a summer school at University of Washington on “Dental clinical research methods” in 2005.

He was awarded Colgate Bright Smiles Bright Future award at IAPD congress in 2003

In 2011, he established advanced pediatric dental center called Children's Dental Center, Gurugram, as a branch of Seoul's Children's Dental Center where he started practicing inhalation sedation

He is also the author of the book titled “Nitrous oxide in Pediatric Dentistry: A clinical handbook”.
